CALL FOR INTERSPEECH 2014 TUTORIALS

INTERSPEECH 2014 will host a number of high calibre tutorials covering interdisciplinary topics and/or emerging areas of interest. While the conference theme is ***“Celebrating the Diversity of Spoken Languages”***, we also welcome applications for tutorials that either introduce a new area of interest to the speech research community or provide a condensed overview of an active area of speech related research. Each tutorial will be of three or six hour duration and is expected to provide a complete coverage of the proposed topic rather than focus on individual research.

Tutorial Proposal Template

- Tutorial Title
- Duration [3 hours - 1 session, 6 hours - 2 sessions]
- Presenter(s) [Name and Affiliation]
- Description of the proposal
[1-2 page description plus a few relevant references and any webpages/material that will be useful]
- Novelty of the proposed tutorial [brief outline]
- Description of Presentation format
[organisation of the presentation across one or more presenters, video conferencing, etc.]
- Special equipment that may be required for the tutorial
- Contact Information [email, Telephone]
- Biography of Presenter(s)
- Key Publications of Presenter(s) on the tutorial topic
- Target Audience [e.g new researchers to the field, research students, etc.]
- Handouts [Will any handouts be provided to the tutorial participants]
- Other requirements/Comments

Visit the Tutorial Page of the conference website for a tutorial proposal template and the latest update:
